

SAVE THIS FLYING SITE!!!! We have lost two other flying sites at the Salton Sea already. Please do your part to keep this site open. We must self police..

The sheriff came by with several warnings today:

1. Do Not fly over any of the trailers or houses. This would be a violation of FAR103 as you know. Make your approach well away from of people, houses, vehicles.
2. Do not chase or even appear to disturb wildlife. If birds start to fly while you are nearby, turn 90 degrees away from them, so it is obvious you are not disturbing them. If you disturb wildlife you could receive a \$400 ticket.
3. Keep your Touch and Go's to remote areas, where you will not be perceived as bothering wildlife or people.
4. Be very respectful of the bocci ball court. Do not buzz them and if you are driving by slow down.

If you see another pilot violating any of the above, please talk to them and make sure they understand. If any pilot doesn't agree to follow these rules, we may need to decide as a group that they are no longer welcome at the Gathering.
